FROM : Lawrence f. Barker

SISJECT : Meeting with LITAMIL-9, 16 November 1963

L. A meeting was held with LITHIL-9 from 2007 hours to 2239 hours, 16 November. The meeting took place at 3's hore -- pick-up was by car and B's wife sat in back with L-9 -- he was introduced to her as "Senor Aguilar."

2. L-9 reported that on the afternoon of 16 How he was called AMLEO-3 who wanted to see him on a matter of importance. L-9 was cuite au prized to receive this call but told A-3 to "come over here now if you want to," A-3 said he thought it would be better for the two to meet at the bar of the Del Prado Hotel at about 1800 on 18 Hov. L-5 asked 3 for instructions. B said that in view of the possibility that h-2's hore phone might be tapped or that A-3 might let word leak out that he had contacted L-9, L-9 should inform Ambassador Hernandez Armas of the call -- it was agreed that B would concult further on this matter and that the final decision would be relayed to him on the evening of 17 November - L-9 would call B's home end B, in a short conversation would use the word Acapulco if the incident should be reported Fazatlan if not. (L-9 called as scheduled and the word Acapulco was used). L-9 was advised to keep away from A-3 who was believed to be in town in connection with his efforts to get his relatives out of Cuba. He was told not to go to the Del Prado Monday night unless Armas insisted that he do so. He should make every effort to avoid any encounter with a-3 -- staying away from his home as much as possible.

3. L-9 has some lingering suspicions about A-3 -- said that bark in Cuba A-3 used to drive a Mercedes Bens 190-SL sports car, bright red, which he sold to an officer in the Mexican Embassy -- L-9 found this strange since the Mexican, who had diplomatic status, could bring a new car into Cuba duty-free at much loss than the going price for a used one on the local namket. L-9 concluded from this that there might be some sort of hanky-panky between A-3 and the Mexican official.

4. L-9 reported further as follows:

He has seen a bit of Foració LORES Canches of the Bellas Artes Institute lately and has core to the conclusion that FLORES is 100% in favor of the Castro regime. He arranged a meeting between Arb. Hernandez Armas and Flores at the Hotel Haria Isabel on Thursday 14 Nov (we picked this up on LIENCY). This had to do with an exhibit of Mexican art in Cuba — schwiuled for January 1964. L-9 had earlier made some arrangements to send Mexican paintings by air to Cuba (also picked up on LIENCY).

On the Nov Mexican doctor (For MINITED OF The Subanow in Mexi, reported that the Minited of hurricane relief, sold to Cubangovernment and had, in the guise of hurricane relief, sold to Cuba 200,000 pesos worth of merchandise for only 30,000 pesos.

At the airport on 11 November L-9 saw the Cubana stewardess Marta (Thirt speaking with a "known guseno" (L-2 descript know him by name).

This "gusano" is often at the simport, and the simport, as curly hair. (Couldn't be our minute of the simport, as curly hair.

Dra. MQIDO has told Teresa not to have anything to do with Silvano REYES Tuentes without checking beforehand with her,

Roul TERSIRA says he is going to get married in May in Cuba to a girl who works in MINREX. When asked if this would be by proxy, he said he would go to Cura for the marriage but that his wife would not subsequently come to Mexico. (This is an interesting tidbit it will be recalled that PEREIPA has been coming up on LIENWOY as a possible homosexual.)

CAZCIE will be leaving for Cuba on 18 Nov. L-9 believes there is no force in the world that can deter AZCUE from his determination to return. A's wife is desperate, hates the thought of going to Cuba but does want to see her children who are there. L-9 overheard A say in the office: "I've alreedy started to fight, within a year I'll be a prisoner in the Cabana Fortress." Said this on 18 Nov

Roserio CASTELLANOS, female, Mexican writer, was at the recent Embassy party given EXECUTERATE in the honor of Alejo CHRPENTIER. She works at the ULL where she has a responsible position. She said that she had asked the permission of the Rector CHAVEZ to go to Cuba. CHAVEZ turned her from at which point she said, "I quit." CHAVEZ then smoothed her ruffled feathers by explaining that if she were to guit she would be acting in an unpatriotic manner in a difficult situation since now that DIAZ Ordan is lined up for the Fresidency all future appointments will be of people from the political right and she would only create a vacancy for a rightist.

(This refers to the issue of Politica which had a photo of DIAZ Ordaz on the cover along with the words — He will not be president). Polores said that DIAZ Ordaz is a good friend of her father and that her brother will probably become a diputado in the new legislature. She said that DIAZ line would be the same as LOYSZ Mateos! — no problem.

w. The planned exhibition of Ouban engravings at San Luis Potosi did not come off for reasons not fully clear — some administrative SMAFU.

L-9 is now planning to set up an exhibit at Guadalajara.

5. B informed L-9 that he would be on vacation from about 2 December until Christrastime — said that he could put L-9 in touch with another officer during this period or could put the operation on ice with an energency mail channel left open. L-9 said that he much preferred to put it on ice, does not want to be exposed to any more people. For the first time he showed some concern about finances — said that he might go to Cuba for Christras and would like to have some money available to do some shopping before the explained to pay the next six-months advance rent for his apartment in the deber. He explained that when he goes to Cuba he hopes to take many gifts — has all along been sending packages to his sister-in-law and feels that this is good insurance in several ways, especially since it suits her to have a source of supply in Mexico — hence L-9 would probably be left alone and allowed to remain in Mexico. For his rent he will need six times 650 peace or 3,500 peaces. 6. L-9 made it clear that if he does go to Cuba he (as last year)
does not want to take any SW material or have any contect with KUNNEK people
inside. He will, of course, keep his eyes and ears men and make as many
interesting contacts as possible. It is falt that we would be foulished
insist that he undertake any "mission" inside in view of his outright refusal
last time to take any SW materials. A good briefing and debriefing should do
the Job. It would do him no harm to renew acquaintances inside Cuba and a true
vacation would probably do him a lot of good.

7. Next meeting: Open.

Add: No heart-to-heart motivation-boosting session was required at this encounter -- other than being a bit shaken by the ANLED-3 phone call, L-9 was in a good nood and not noticeably nervous. I's wife remarked on 18 Nov that "Aguilar" was quite nervous when he got into the car at the pick-up point.

MEMORANDUM FOR THE RECORD

FROM : Lawrence F. Barker

SUBJECT: Meetings with LITATEL-9, 23 and 27 Tovember 1963

1. On the night of 23 November L-9 contacted Darker by phone and a meeting was held from 2130 to 2230 hours. L-7's reason for making the contact was to express his condolences for the recent assessination of President Kennedy. It was clear that L-9 was hadly chaken up by this happening — when he spoke of Mrs. Jacqueline Kennedy his eyes clouded up with tears.

2. L-9 was asked if he had ever seen Courld -- no. Had he ever heard that Oswald visited the Cuban Embassy in Merico -- no. Did he know anyone in the Cuban Embassy that knew Oswald or knew enything about him -- no. (At this time <u>Didyis Dynan</u> was in the hards of the Merican police but L-9 was obviously unaware of her detention). Isked that the reaction of those inside the Embassy was to the news of the President's death, L-9 said that he had heard very little talk about it, that the Saturday morning staff neeting was a short, perfunctory affair, but that just about everyone seemed to be truly shocked. He had heard no one empressing pleasure about the killing. He said that this reinforced his belief that once Fidel Castro falls, the Cuban people, even many of those who are now classified as a tria o "werte types, will quickly show themselves to be essentially good people and essentially US-oriented.

3. L-9 was asked to report on the oftermath of his conversation with imbassador Armas about the phone call L-9 had received from MICO-3 and which, in the interests of security, it was decided, with HIS and MICO-3 and which, in the interests of security, it was decided, with HIS and MICO-3 assent, that I-9 should report to Armas. L-9 said that this went very smoothly -- that Armas apparently did not recognize AMICO-3 when he was rentioned -- L-9 excely stated that he had received a call from Coptain (Surmane), that the Coptain would L-9 to come to see him at the Del Frado, that L-9 felt that this was semediat suspicious and told the Captain that if he wanted to see L-9 he should come to L-9's home. Armas told L-9 that he had done the right thing -- that he should not so out raking mysterious meetings with people in hotels. I-9 did not press the point but he believed that Armas thought that the captain mentioned was a Cubana airline pilot. Anyway, his shirts are clean should the question ever come up of his having been contacted by A-3 -- he reported the contact to his Ambassador. L-2 received afterwards that he really mated to brush off A-3 as the two familiars were very close in Cuba.

4. Inother meeting was held from 2100 to 22ks on 27 November. By this time the armost of Silvia man was public knowledge and L-9 made it his first topic for discussion. He said that Silvia was back in the Embassy on Monday the 25th and said that she had been held for 6 hours by the Federal Police. She seemed to be quite pleasa with her performance -- said she kept reminding the police that Mexico is a five country and that the constitution cuaranteed her freedom from such persecution. To this the police just laushed and said that the constitution wouldn't be for any good in fail, she had better cooperate if she wanted to get out. The fively admitted that she had need about in the Consulate, that he cans le bit for a visa but that Cuba had assumed the request (this seems like fact accept to the effect that uswald could not be issued a transit, visa en rouse to the USSR unless and

until he received a USER visa. She said that the cops had threatened her with extradition to the US (seems unlikely) whereupon she said she would be made to provide the US to face Cavald. She said that complaints would be made to President LOPER Nateos through Environmental MANICE. (L-9 does not know who AMMINER is or what his access to IM is) Silvis said that she was quite surprised that word of her arrest was relayed to Raul WARICEO Nogales so fast by (fnullTREAD who flashed the word by 2300 hours 23 Nov. At this point Topesa PARENTA, one of the crowd listening to Silvia tell her tele, ordered her nephew to leave — said; "we don't want you around here." All in all, Silvia thought she did a good job of standing up to the police. L-9 repeated, as he had done before, that she is a very intelligent, quick-witted girl. She did not appear to have been roughed up in any way or to have suffered from her "ordeel."

- 5. L=9 had nothing more to offer on the leanedy assassination was again shown a photo of Oswald never saw the war. He said that there is not much talk around the Embassy about the killing perhaps because no one is expected to approve of such a thing yet at the same time no one wants to make too much fuss about it for fear of being suspected as pro-imerican.
  - 6. L-9 reported on other matters as follows:
    - a. The Counselor of the Soviet Embassy (no name given) came to the Cuban Embassy at about 1045 Monday 25 November. He spoke with Dra. Targot MCCHIDO. The Ambassedor was not present at the time.
    - b. Inc. Jorge Titamo was in the Embassy on Monday 25 November.

      He remarked that he had been to see Tita Ordaz some time ago about getting a permit to send his sen to Cuba to see the heart specialist Dr. Enrique CHRATA. (I's son suffers from some heart ailment). DIAZ Ordaz questioned T closely about the projected trip (this was while DO was Minister of Government) and T took advantage of the occasion to complain to DO that recycle from the procuraduria had confiscated some medical slides from a Cuban heart specialist at the simport. (L-O was the person who eventually receivered these slides). According to T, DO was somewhat upset, said that the procuraduria people had no business doing this, and saw to it that the slides were returned. T said that DO mentioned L-O by mane, telling T that he would see to it that an order was issued for the slides to be turned over to L-O.

      T passed took around the Othan Imbassy that everyone should be very careful to speak only the best of DO who might prove to be a useful friend.
    - c. A mosting a Consular officers from all Guban Consulates was held on Tueslay. L-9 does not know what went on at this meeting.
- 7. L=9 was paid 12,000 pescs h,000 each for the months of Nov and Dec plus 4,000 year-and bonus. He was told that the C/O would be out of tour during most of December and he reiterated his desire to have the operation put on ice during the interim he is not anxious to be "exposed" to any nore people. Arrangements were made for an emergency commo channel to him in case it night become necessary for us to contact him uning the C/I's absence. Letails on next page.
- 8. L=P asked B to buy him some oil paints in the US -- said that the Mexican product is inferior. Will be L=P is doing a lot more painting these days. He is now putting the finishing touches on an oil mainting

SEORET

of Camilo CIENFUECOS which he plans to give to the Embassy, possibly to be raffled off, proceeds to go to hurricane victims.

9. He was asked for additional detail on <u>Index Talderon</u> -- had little to offer except to report that Luisa had recently moved. He believed that she had been living with the MACTRO's and Peregrina ALONSO but found that this was a bit confining and had noved "about ten days or two weeks ago" to live with a Mexican Family. L-9 believes that her mother returned to Cuba some time ago. Her, Luisa's, new phone is 30 - 52 - 55. She "talks like a Communist," and speaks English -- L-9 thinks she has been in Miami, Florida -- does not know when. He says she is "muy mona" -- very pretty. She is about 2h years old.

10. The come arrangements set up with L-9 were as follows:

Signal: Someone will phone L-9's apartment at 0800 hours and will use the word "alfordra" -- rug -- perhaps saying, we will be buy to pick up the rug you want clonned -- something in this order that uses the word ALFOLDRA. L-9 will reply, "You must have the wrong number."

Meeting: The night of that same day and on subsequent days until contact is effected L-9 will go to a public phone booth at the corner of Reforma and avenida Monte Altai (Loras) at 2000 hours -- 8:00 p.m. He will be approached by an American who will have in his possession and clearly visible a copy of TME magazine and a pack of FILTROM cigarettes. No verbal signals were laid on. L-9 can be readily identified from phose on file.

Hote: There is a bookstore -- the one with the huge red lighted sign L I B R E R I I about a half a block up heforms (up hill) from this phone booth -- L-9 as a confirmed booksom can lowned around here, browsing until 2000 hours. L-9 is punctual -- always on time.

Person making call to L-91s aboutment should speak excellent Spanish and should keep the conversation short. BO MOT ASK FOR L-9 by name -- he is going to say it is a among number. He lives along and is always home at OSOO hours.

The contact point (plone looth) is on the right side going up Reforms -- beyond Patroleos monument -- a short distance beyond the halupas restaurant.

II. L-9 turned over some Havana newspapers which will be forwarded to UNITAVE.

Cuben "Identification" of KUBACK Agent

Raul MACIAS Franco, Cuban delegate to the Assembly in Mexico City of the International Union of Architects, which followed the Architectural Congress held in Havanz in early October, informed LITAMIL-9, a Mexico Station agent, that the Cuban Fovernment had identified the Greek delegate to the Havanz congress as a KUBARK agent. FRON

Lawrence F. Barker

SUBJECT :

Meeting with LITAMIL-9, 15 October 1963

1. L-9 was picked up in Felance at 2000 hours and driven to B's home where a meeting was held until 0020 hours (16 Oct) at which time L-9 was dropped off in Colonia Cuauhtonoc. He identified 90 photos from among several hundred taken from the LIEMERAGE Base House; he was unable to identify any from the LIEMERAGE coverage of the AMENOB-reported Safe House at 157 Pachuca.

#### 2. L-9 reported on the following:

on 8 October L-9 and Raul 4P4RICIO Nogales had a few drinks and dinner with Raul\*\*\*\*(CIAS Franco, Cuban delegate to the Assembly of the Internation Union of Architects held in Nexico City the previous week.

Reported by disputch to attous.

MACIAS said that the Greek delevate to the recent Architect's Congress in Havana had been identified as a KUBARK agent. He did not give this ran's name.

The Mexican Ranon COMMA gave the Castro-Cubans a lot of trouble in Havana and it was hoped that some way right be found to take the Vice Presidency away from him, because of the proposals he made — which were disruptive, but the Cubans and their allies decided it would be best not to risk a fight with COFONA.

The Englishman who presides as president of the UTA (International Union of Architects) was, on the other hand, very docide and easy to get along with -- the Cubans liked him. When he came back from Cuba the Mexican authorities at Merida "gave him the works," dumped the contents of his luggage out unceremoniously and searched it carefully, confiscating from him a number of packages which only contained materials relating to the congress. The Cuban delegates, such as MCIAS, himself, got the same treatment and lost a number of things they were bringing to hexico.

During the Havana congress, a number of lapel identification buttons (allowing holders to enter the sessions) disappeared and it was hastily assumed that an American present, an editor of the Magazine Architectural Record had, in conspiracy with an English newspaperman, stolen them. These two persons were, accordingly, hald under arrest at the Riviera Hotel one morning from 2 a.m. to 6 a.m. NICLAS had to intervens to secure their release. The American appeared "hurt" by the accusation and arrest ald kept asking for someone to send him a drink. (L-9 said: If he was a KUBARK agent, he did a good job while under arrest, judgin from MICLAS' account)

Draftliberto RUIREZ Corria, a physician who was here for some sort of medical conference (having returned to Havana on the October) said that rumors were rife in Havana that counter-revolutionary forces planned to borb Havana from the air during one of the sessions of the architectural congress. Anti Aircraft units were ready and care was taken not to announce when and where Fidel CASTRO would address the group lest he be the target for bombing.

(Note: RANTETZ Corrie was here with another physician for several days - L-9 saw quite a bit of RANTETZ and had him take some medicine to L-9's father on his return. He assesses RANTETZ as a "very valuable element, one you would do well to try to win over to our cause." L-9 did not know the name of the other nedico but identified his picture in the LIERODE take.

- A short time ago, Vice Consul Ovilio 61MA of the Consulate in Veracruz told L-9 that he would like to close down the Mexican-Cuban Cultural Institute in that town it is not working out well, people are not attending meetings. SAMA feels that the 800 plus pesos per nonth that this operation costs can be spent in better ways.
- d. RUTZ of the Correctial Office told L-9 that someone had given him 30 dollars in Cuba to buy a pistol here in Mexico and that he had managed to find one for 300 pasos. (LIENVOY recently revealed that RUIZ was buying a Spanish Llana pistol).
- e. Cubana Captain SAMIDEY saw L-9, VEGA, and SOJAS of Cubana at the airport on 14 October -- L-9 and VEGA had gone out together to see RAMIEZ Corria off -- and SAMIDEY pointed to the IL-18 on the field, saying that for several reasons they had not yet been able to get permission to use this plane (which brought the Soviet cosmonauts to Moxico) to carry medicines and other relief supplies as cargo on its return to Cuba. PROJES later showed up about 6 p.m. at the Soviet Embassy (where a reception was in progress) to speak to Ambaccador HIRMANDEZ Armas about this same matter -- L-9 witnessed the encounter. (LIENVOY covers this subject).
- f. At the SovEmb reception mentioned above, which was for the purpose of introducing Soviet delegates to the International Aeronautical Conference then in session, L-9 spoke with (fnu) of the Foreign Office -- L-9 says that CICERO is proSoviet, anti-incrican. He overheard a young Mexican official of the Mexican Aero Club asking CICERO if it was true that the Lice, Israeli delegate to the Aeronautical Conference was going to be expelled from Mexico -- didn't hear the answer to this. The expulsion was reportedly in connection with a "problema nigratorio."
  - The two-door blue Suick sedan used by the Commercial Office is going to be sold -- according to Vega.
  - h. When L-9 was seeing RAMIREZ Corria off a character-sheaknews only as "Piru" showed up. This san lives with MICHE and Passeeon

in Moxico several/months. He is a Cuban and was closely connected with "Che" GUEVIPA in some official capacity. He does not plan to return to Cuba but is still in touch with "Che" — received a letter from him 2 weeks ago. As RAMINEZ and his doctor companion prepared to leave, "Biru" said, "My brother is chief of all those medicos in Cuba." "Biru" is a light mulatto about 35 years old. Coty SCIORZANO is now trying to get him a job in Nexico City. He usually eats lunch with AZCUE. At the sirport he said he couldn't understand why AZCUE was willing to be recalled to Cuba — said that he doesn't know how AZCUE will ranage to survive what with ration cards and other such inconveniences.

### PRIORITY TASK: IDENTIFY THIS MAN "BIRU"

Mooner HMM, a senator from British Guiana, left for Havana on light October — he is very friendly with L-9, spoke with him before making an earlier trip to the Island which had to do with procurement of petroleum products from Cuba. He told L-9 that the Mexican Consul at Trinidad had given him a 6-months multiple entry visa but that this was taken away from him at the Mexico City airport. He wondered whether AZCUE might help him get it back. AZCUE told him to relax, that he could get

KHAN left a postcard with L-9 to mail to his wife. L-9 showed it to Barker. Copy:

- J. L-9 says that LLAGOSTER1 and LIGHT are involved in a big love affair -- LLAGOSTER1 as really love-struck and it is quite obvious to everyone in the Embassy that the two are involved -- they chat on the inter-phone quite often. (LIEN-WOY alerted us to this love affair recently) According to L-9 LLAGOSTER4 is vulnerable because he has a wife and child in Cuba.
- k. Other insignificant items were reported on but not worthy of inclusion here.
- 3. A long conversation was held about clandestine operations in general, motivation, security, communications, etc. As has been discovered in the past, L-9 periodically requires an opportunity to explain why he is working for us and this must be followed up by renewed assurances on our part that we greatly appreciate his work and the high principles which notivate him. In this instance, confortably ensembed in B's home with a glass of scotch in his hand,

SECREI

L.9 rms in a telephotem mood and no effort was made to shorten the session. After he had performed his catharsis he seemed to feel much better about things in general although on the way home he remarked that he hoped the Cuban promblem could be solved within a couple of years so he could get out of this work. It is clear that he feels strong pressure and, not being a daring individual, he is looking forward to the day when he can stop living a double life. Nothing new came of this conversation which ranged far and wide — from antique automobiles to classical music — except that it apparently did L-9 some good and gave the C/O a chance to insert a host of tradecraft pointers designed to sharpen up the agent's security and convince him that (1) his security and well-being is our primary concern, and (2) if we practice good security in the operation he need have no fears of being compromised. (NB: A tour as an instructor at ISOLATION is the best basis training imaginable for this sort of situation — really pays off).

h. A start was made on sketching the physical plant of the Embassy but L-9 was quite tired at this point and this work was left for the next meeting. L-9 looked over our file material on the Embassy building and explained that so many changes had been made in the last year that most of what we now have is completely out of date. The next meeting will take up the Embassy premises as the first order of business.

Subject

Meeting with LITAMIL-9, 26 October 1963

1. A meeting was held with L-9 from 2000 to 2135 hours in B's car (parked in Tacuba) on 26 October.

2. L-9 reported as follows:

Coran forma 40. La.

A few days earlier Coty<sup>X</sup>SOLORZANO, sister-in-law of General Lazaro CARPENAS, told L-9 with a groan of disgust that it looks like DIAZ Ordaz has been chosen as the PRI presidential candidate.

The Ambassador is still using the wall safe built into the cnimmey of his office (we have photos of this in our files). L-9 thinks that the Embassy payroll is kept there as the other day when he walked into the Ambassador's office he saw the Ambassador shut the safe door -- Dra. MACHADO was there, having just returned from the bank where she withdrew the payroll. Dra. \*MACHADO handles the payroll for the whole Embassy.

MARGOR PARCOL

EUSEBIO LOPEZ

C. MAZCUE] is leaving PCS for Havana on L November.

dox VEGAVis leaving quite soon. No replacement for him has arrived.

e. MIRABAL is looking more and more like a "security type." He is a key man ("lleva la batuta alli") and appears to be a convinced Communist. In the old days, before CASTRO, MIRABAL worked for the Sherwim Williams paint factory (L-9 thinks S-W in the States must have a record on him) which was located a short distance from the plant owned by L-9's father.

- f. Dra. MACHADO recently told L-9 that WEGA was discourteous to her when she first arrived here but that he has softened up a bit recently and now seems to "accept" her. She thinks this may be because the lost two sons in the Revolution (no details given). She complained that LLACOSTERA still doesn't accept her but JORRIN seems to be coming around. (This may be the usual resentment caused by a female in a responsible executive position).
- g. Embassy staff meetings are held every Saturday morning from 0900 on usually lasting about two hours. They used to be held in the "theater" out back under the new construction but are now being held in the glassed-in terrace at the rear of the main building.
- h. Three Marxist study groups and being set up in the Embassy to include everyone on the staff. VERMADEZ Rea, known as ROA to the staffers, is rannoding this effort. These groups should be organized within a week. (L-9 dreads the thought of submitting to this indoctrination but realizes he must go along with it).

- 1. I-9 recently engested that Febassy staff meetings he held at night so that afterwards everyone could get together for dinner. RUIZ of the commercial office took exception to this -- said that the result would be just like the Rotary Club. Ambassador HERNANDEZ Armss supported L-9's proposal but did not press for approval and the decision was made to continue holding the meetings on Saturday mornings. Later on the Ambatold L-9, "well, I supported you, anyway."
- Jet Quin Hermande 2 Hamas

  J. The Ambassador said at a recent staff meeting that he was taken to task by a Mexican senator who asked him why Cuba refused to sign the atom test ban pact. ARMAS (he, like ROA, is known by his matronymic) tried to explain that Cuba could never sign the agreement as long as she is the subject of American agression. ARMAS said that Embassy staff people should be prepared to answer such questions and mentioned that a request was being sent to Havana to allow the expenditure of sufficient funds to print up 10,000 copies of Fidel CASTRO's speech of 28 September to be distributed locally -- this speech apparently conveys the present "line" on the test ban issue.
- TRANOTE recently visited the Embassy and said that his daughter Irina, the ex-wife of Rumiro VALDEZ, will be coming to Mexico soon on a "special mission." He also said that his nephew, a Chilcan, (no name mentioned) recently arrived here proceeding from the USA.
  - m. L-9 got a nice thank-you letter from <u>Fercedes\*LECHUGA</u> -- sister of former Ambassador LECHUGA -- thanking L-9 for having sent her a bottle of perfure. L-9 was pleased to get this evidence of confidence since, as he says, if LECHUGA were the least bit suspicious of him Mercedes would not/correspondend with L-9.
  - n. L-9 believes he heard the ran with the thin mustache referred to as FFRITE. This is the ran who showed up at about the same time the unidentified "light skinned mulatto" (and possible code clerk) disappeared from the scene. L-9 identified his photo at the last meeting. (A Raul FERENIA has been showing up increasingly on LEENIOI traffic -- we had considered this to be Raulito the messenger boy.) L-9 will try to find out more about FERENIA and will look into the last name of Raulito.
  - o. MIDITUM -- see last CR -- L-9 had no more on this ran except to report that he thinks Biru has found a job and that Coty SOLORZANO helped him to get it. L-9 says that Biru was sent to Mexico by "Che" GLEVARA.

- p. Regarding Sara NEWNINDEZ Cata, now in Caracas, L-9 recently learned that sometime in the past when Sara was on a Cubana plane at Nexico City, preparing to depart for Havana, she made a few anti-Revolutionary remarks. These were reported to Orfila, who reported them to Teresa PROENZA, who reported to Ramon SINOBAS (at the time Charge at the Embassy), who fired off a cable to MINREX Havana. When Sara got to Havana she was accused of mintrigue. Teresa PROENZA recently told L-9 about this. (REPORT TO CARACAS STATION).
- q. A Cuban functionary on his way to Uruguay from Havana had some trouble with Mexican officials at the Central Airport -- a Cdte. VENTURA took some papers away from him when he arrived 24 October and as a result the Cuban was forced to cancel his onward reservations on Varig for the night of 25 October -- said he could not complete his mission without his papers. (Reported this to CAEOT 28 Oct in case LIFIRES might be able to get hold of the papers in question).

- r. L-9 says that <u>Dra. Michipo</u>, her daughter <u>Beria</u>, and <u>Percerina MALONSO</u> all live together near the Embassy. (This may be in 157 Pachuca where the ANGNOB-1 safe site was located) L-9 will ask Dra. MACHADO to have dinner with him at his apartment -- making sure she is there well after nightfall so that he will be obliged to see her safely home and, in the process, find out where she lives.
- As usual L-9 needed a bit of bolstering. He said that he feeds intense pressure at staff gatherings when everyone locks at everyone else present and wonders "who is the Judas in this group." L-9 stated that he would much rather do some other kind of work and would rather sell tomatcas on the street than do what he is doing now. The thing that really keeps him going, aside from his expressed regard for KUBARK and his oft-repeated affinity for the Anglo-Saxon, is his sincere disgust with the CASTRO regime. He again told the story ( B has heard it a half-dozen times and Shryock probably heard it often before that) of his father's having built up a big business by unstinting hard work -- of having brought his family up from nothing to a position of honest respectability -- only to be classified as a "bandido" ani "explotador" by a bunch of revolutionary buns with beards. It is the case officer's belief that if L-9 did not have a release through painting he would break off from the Embassy and, naturally, from KUBARK. It is furthermore believed that if we were to ask L-9 to submit to an LCFLUTTER examination as Headquarters has recently suggested, L-9 would immediately break contact with us as no matter new diplomatically the build-up might be phrased he would take it as a slur on his honor and we would be without a penetration into the Embassy.

FROM : Lawrence F. Barker

SUBJECT : Meeting with LITAMIL-9, 4 Nov 1963

l. A meeting was held with L-9 in B's car from 2200 hours to 2345 hours, & Nov. The car was parked in the Tlaxpana area.

#### 2. L-9 reported as follows:

a. Manuel VEGA left on PCS orders for Havana on the 3 Mow Cubana flight. Coty SOLORZANO bid him goodyre at the airport along with members of the Embassy staff. It is not clear who is or will be replacing VEGA.

b. FERNANDEZ Roa worked very late the night of Friday 1 Nov. L-9 still thinks he may be doing cormo work.

(Aurento)

c. "Mico" GARCL! is going to move into the row of offices where L-9 is now located and is being "cased in" -- is installing door, blinds, etc., as did ROA recently.

- d. +AZCII \*AZCUE will be around for a short while before returning to Cuba -- he is planning to take a trip to Campeche with someone named LIZALDE to study building materials in preparation for AZCUE's assignment to JUCEPL'N as an architect when he returns. L-9 went on at some length about ANDE -- said he was certain that AZCUE is not a Communist, not a IP nember (note that AMENOB-1 has AZCUE admitting he has been a Communist for many years - ?) I -9 repeated that AZCUE is an implementable for of "the Pentagon, and the ruling circles in the US" but has a high regard for the American people. AZCUE's wife is still very upset at the prospect of going to live in Cuba. L-9 thinks MICUF is a loyal Fidelista who would never knowingly cooperate with the Americans. At lunch with L-9 on 4 Nov AZCIE lashed out scainst the Cuban CP -- said that Lazaro PENA should be shot - he has served his usefulness -- after the shooting a monument could be raised to him, but Cuba would be much better off with him out of the way.
- e. MATRIENT, AZCIE's replacement, is not popular and nowhere near as effective as AZCIE's Teplacement, is not popular and nowhere near as effective as AZCIE's Teplacement, is not popular and nowhere near as effective as AZCIE's Teplacement, is not popular and nowhere near as effective as AZCIE's replacement, is not popular and nowhere near as effective as AZCIE's replacement, is not popular and nowhere near as effective as AZCIE's replacement, is not popular and nowhere near as effective as AZCIE's replacement, is not popular and nowhere near as effective as AZCIE's replacement, is not popular and nowhere near as effective as AZCIE's applicable and nowhere near as effective as AZCIE's applicable and acceptance and nowhere near as effective as AZCIE's applicable and nowhere near as a AZCIE's applicable and nowhere near a AZCIE's applicable and nowh
- f. L-9 saw AZGUE kidding with Sylvia resently in the office -- chiding her for being a Cormunist. Sylvia reslied, "It's not true. I am not a Stalinist and I have never been interested in Party membership. I don't accept the Party line and by talking this way you are insulting me!" L-9 thinks Sylvia is a very intelligent girl. He thinks we might be able to gain her cooperation by getting a desirable male next to her -- she is, according to L-9, " a little putita."
- g. AZCUE told L-9: "If they don't give me a good job in Cuba, I'm not

going to be unset - I can always get a job here in Mexico.

- h. L-9 exhibited a book by <u>Alcio CARPENTIER</u> (who is in torm). This book, entitled Los Pasos Perdidos, published in Mexico, had inside the cover two handwritten dedications to L-9 -- signed by CARPENTIER. The first was written when the two first met -- the second was written after L-9 had CARPENTIER over to his studio and C got a lock at his paintings -- this dedication lauds L-9's ability as an artist.
- 1. L-9 showed B his address book -- in it he has a book ark which consists of two ribbons red and black -- with a small photo of Fidel CASTRO attached. L-9 likes to "casually" display this little item when consulting his book in the presence of Embassy officials. He says it has a nice effect on them.
  \*\*CLEO WHAT

L-9 overheard Teresa PROENZA on the phone (we have the same conversation on LIENVOI) saying that Ambassador HERNVOEZ Armas' wife is coming to Mexico on Friday 8 Nov and that she would not be staying at the Embassy, but would put up somewhere outside, probably with Dra. MACHADO. Teresa indicated that all is not well with the ARMAS family and that this was a screenal scandalous situation. (We night be able to make some capital with Mrs. Hdz. Armas by tipping her off about the Amb's dalliances)

k. A tall, blond American student has been in to see about traveling to Cuba. He is studying at a University in Mexico City. (This sounds like the one who came in to see Joe Montllor recently). He is suspected of being an American agent -- "Licha" says that he is an agent for sure. He was there on Thursday, 31 Oct.

1. Legaro told L-9 that he soon intends to marry a Mexican.

Jose Fee VAudi z.

Mi is not happy about being a mere Press Attache. L-9 thinks this is a cover position and that ROA is probably CIS.

- n. Teresa PROUNZA spent the weekend at CARDENAS' place in Michoacan.

  She came back highly increased that Gustavo BIAZ Oriaz had been uncovered as the Presidential candidate of the PRI. She said that LOFEZ Mateos rade the choice himself. L-9 thinks this intelligence came directly from Lazaro CARDENAS. Teresa and the Ambassador were closeted for nost of Sunday 2 Nov -- presumably T was filling him in on the political picture as a result of her visit with CARDENAS.
- o. Someone named (fnu) HEARGUENGCITIA, Reforma 7, Coyoacan, D.F. has recently received correspondence from the Casa de las Americas in Havana.

A Chilean artist (painter) named Huno MIRIN has been hanging around for a visa and the authorization finally came from Hava. This man formerly lived in Cuba, is wealthy. He is considered as a probable agent of the imperialists but the embassy feels he can be watched closely once he is in Cuba.

3. L-9 was in a pretty good mood, said that his sessions with the C/O give him "animo" and are a good antidote for the frelings he has in between meetings when he is sitting in his office, or beside the Ambassador, and wonder-

Thy not can ! !

ing how long he can go on without being discovered and what the others in the shop think of him. This was a good opportunity to inquire into the latter point, and B asked him to explain just what his posture is vis a vis his associates and outsiders who know him only as a CASTRO official. He talked for about 30 minutes on this point, explaining that he tries to project the image of a man who is "more artist than politician," who is not a revolutionary type but who believes that "there is a job to be done here, I have been chosen to do it, and I intend to do it — wanna make anything of it?" He says this works very well — he emerges as a dedicated, nore-or-less applitical worker, who is not going to take any foolishness from anyone who gets in his way, and who, like many artists, may be just a bit wacky. He cleverly manages to lose his temper from time to time with good effect since no-one wants to ruffle him too much lest his well-known "pull" with Fidel might be employed.

- 4. He was paid 4.000 pesos for October 1963. #
- 5. L-9 is planning to do a painting of Camilo CIENTIMOS which will be raffled off so that the proceeds can be sent to Cuba to aid victims of the hurricane.
- 6. He furnished B with a copy of the 3 Nov issue of HOY which carried the AMGLOSSY confessions. This was airmailed to the PIEFER address at WAVE on 5 Nov.
  - 7. Next meeting Open.
- 8. Problem: It will be more difficult to get L-9 into B's home in the future owing to the recent installation of mercury vapor lamps in Loras which light the area up almost to a daylight degree. In view of the necessity to sit down with L-9 from time to time to pour over papers and photographs as well as the desirability to have him relax with a drink in hand a safehouse would seem to be more-than-ever in order, but L-9 is extremely nervous about the prospect of meetings in a safehouse. It is believed that a carefully-timed arrangement, whereby B's wife could swing open the gates of the B home may do the trick and enable us to continue to use the B residence for meetings from time to time.

Ministers walking - Talking to sign of ?

\* A good example of L-9's skittishness is his approach to signing receipts for his pay. He signs each time with a different scribble.

HENDRENDUM FOR THE RECORD

FROM Lawrence F. Barker

Meeting with LITAHIL-9, 29 July SUBJECT:

CS Classification: JOB # 6-6 Box: 2

1. LITAMIL-9 was contacted by phone at his hore at 0815 hours 29 July and a meeting set up for that night. The pick-up was made on Thiers at 2100 whereupon Barker drove L to his, B's, home for the meeting, Driveway lights were out and B's car was driven inside by the door to B's home where L alighted and scooted inside. The meeting lasted until midnight when L was dropped on Melchor Ocampo not far from his home. The decision to use B's home was made in view of the difficulty of transacting much business in an automobile and the good physical security afforded by the layout of B's home in Lomas. It was decided that the time had come to reveal B's identity to L since a social encounter in diplomatic-consular circles was inevitable sooner or later -furthermore B is reasonably satisfied that L is sincerely devoted to the anti-Castro cause and not playing a double game. The relaxed atmosphere in B's home contributed materially to mutual rapport building between L and B. L was quite impressed with the many books in evidence and showed great interest in some of the paintings and furnishings in the house, saying "Es evidente que es Ud. un hombre muy fino."

3. L explained that he had just arrived back in Mexico City on the 28th -after an extended trip to Tampico where he was very successful in staging an exhibit of Cuban engravings on 20 July and a big affair at Ciudad Madero on the 20th celebrating the anniversary of Fidelb Cuartel Moncada attack. We exhibited a number of newspaper clippings and photographs concerning these events and said he was more than ever "in" with the Ambassador for having sponsored these two events. He may go to Merida on the 31st to represent the Embassy at a meeting of the Jose Marti Cultural Group there. After that he plans to rest on his laurels and devote more time to painting. He seemed somethat concerned lest the Mexican Government give him trouble in view of his recent activity for the Embasey - explained that a boy distributing leaflets in Tampico had been picked up and arrested. B explained that it was highly unlikely that the Mexican Government would take any action against a diplomat who was simply (in their eyes and those of everyone else) doing his duty. It is to be noted that L is not the corageous type - he is constantly expressing fears that he might get into trouble, this even when his actions are those which would normally be expected of a man in his overt position.

4. The greater part of the meeting was taken up in going over a large backlog of LIERODE photographs. I made the following identifications:

DESCRIPTION FOR THE RECORD

FROM : Lawrence F. Darbor

SUMBOT : " Mosting with LTOME.-O. 11 July 1963

- I. At about noon II July L-P phoned Parker's here, spoke in English with Mrs. B and said he would call again at 2000 hours. At 1905 he phoned Sgain, B answered, and it was agreed that DM would newbest 2100. Accordingly, at 2100, B picked up I at the corner of Suterborg & Misers (circle at Polonco), the same contact point Engreek, its former love Officer, used to employ. BUT drove on out to Iomas and parked, for a long tolk, I was dropped off about 4 blocks from his bone at 22%.
- 2. In explained that he had phoned Parker twice at Parker's old Monte thos address after returning from Versorum and before going on to Tampice -- no answer either time. It developed that I had been using a wrong number -- replacing 20 with 30. I was quite enlarguesed about this fluke, saying, "It's the first time Tive over done anything like that."
- 3. The meeting was conducted entirely in Spenish. It was a classic of sorts -- shoot as though a notific had been prepared beforehand. What it amounted to was an understandable only give obvious, although not direct, attempt by I to sound out his new C/O in virtious ways to decide whether he wished to have his life in the hands of B -- a hitherto unknown quantity to I.
- In I began by stressing the dargors inherent in his position and confronting him as posed by the recent enrival in the Cuban Enhancy of a number of highly-qualified, hence dargorous, people -- the new anhassador and the new cultural counselor are two everyles. I pointed out that there people are of varsity quality and representative of a new breat of Cubar diplorat, nore unbure, more intelligent, and in every two much better qualified than their predacements. I felt that out of respect for the caliber of the appointion to should take extreme assumity processions in our future controls and rectings. I readily agreed and printed out that contact points should be varied and away from the min attents of follows the hights how street lights. I said be had the same idea in mind. I waid be did not with to follow the old puttern of parking in the same due to be up to ne good, perhaps coning for a relient, and, in any every, would be hard present to explain their pre unce in the tailsfaction of we introduce the hard present to explain their pre unce in the tailsfaction of or introduce as work arouse supplied on it hight look to checking of its license plates or subsequent mobile surveillance. I accord to case his neighborhood for before contact points, note those on a ray, and be prepared to discuss proced of the protection of L. I seeked this an explaint bruction up like a specie and should his appreciation.
- 5. Basked L that he would reply if he were to be approached in his collice on the morning of 12 July by one of his co-workers and asked, The was that gringe type you were seen with lest might? This drew a rather lengthy and asked silence 5 bould come up with no answer. I then gave him a short course in cover, throwing in lots of owerples from real epocations (globaceisfrom 3) years of ISS ATTON instruction experience) and a few

suggestions for action cover. It was generally agreed that DM right never and to use a cover stage to semilar their assistantial, in view of the resort to clarifyliation right-lime meetings, but also agreed that such a story should be agreed used in advece, just in sees. I suggested but this cover right be related by the activity as an artist and pertrait painter. I was advised to give the subject a lot of thought -- DM will discuss at the next recting. An interceding sidelight was that I (probably referring to I's use of namenous successor exemples to illustrate the mass of cover) said, "You're a lot now European then Surgock -- I can tell that you've had considerable experience there." Farker admonlated this although he has never set feet in Europea. Incidentally, I showed throughout the meeting a very high regard for Parrock.

- 6. I tried to explain his noise operands and, almost applicationally, explained how he had made operangements while in Tarmico for a big cultural exhibit by the Consultue there on fively. He hoped we would understand that he felt he had to do this, explaining that he could "live off" the prestige gained to refer on for a couple of months. B explained that it was essential for he to do his overw job and do it well, that if he succeeded in winning over a few people to Fidal Castrols side we would not be upset that we would be a pain of eyes and ears and a good busin inside the embassy if I does not do his overy job well sooner or later he will be on the outside and unid all he had cover. B explained that he has experience in hundling D' respectation agents he had eften come up with similar problems the agents found it difficult to believe that we really wanted them to set like Commists and go out at night to paint "Markee Go Home" on the walls but, that if they failed to be good Communists, we would soon be minus good accepts. B told I not to worry about the consequences of his estensibly performing will on behalf of the Castro government yet at the same time I should not step out of character on hecome a rabid Pidelista. At this point he sighed, three up his hards, and said, "Now I can see that we are going to get along wonderfully (a les mil mirevillas)."
- 7. I emplained that one factor always in his favor is the fact that he is known to be well composed with Fidel that persons in the embassy are never sure he is not more than what he appears to be on the surface and that no-one in the embassy peakly deres to "take him on" in any dispute lost he pull his stoings with Fidel. I acknowledged the value of this "awas" and advised him to keep binself semants' of a mystemy to his associates innofee as the committee with Fidel. It remarked semants modestly that ACCIT had recently told him that he was especially valuable to the embassy precisely because he does not cant and any shout the imperialists, does not make wild Tidelista projectants, but convinces people because of him obvious culture and intelligence.
- 8. When B gave I his done calary of h,000 proces I asked for the receipt before it was in evidence; and signed it without healthice. He then laureholders an explanation of the health court in one will be used being what some signt them a "traitor." I writed to cut him off but he would not be stopy if -- unuted to set the record straight. It is alread that he is a singera, convinced idealcyical opponent of the Castro juvernment -- he was determined to make this clear, and did so elequently.
- 9. I impredoes B as an expediently valuable egent with great potential -- highly cultured, intelligent, operationally "sawey," idealogically rotivated -- a person charmon identity closely in a personal way with

his case officers. By the Entrol M a recting I may obviously dynamical midd B's catherille productors a despotent (Marmotting was heavily, solid in with tradecraft instruction and entroples from experience) and a very friendly attempters migned although it will probably be called the before I has the sort of personal epheny for B that he has for his former C/G.

10. Little of intelligence value concentral the morning — I had just returned to Maxico Sity From extended trips to Meracum and Torpico — arriving the night of 10 duly. He got back just in tipe to asterd an embary press reception at which he was buttonicled by WEFFURDY of the Joseph Embary who impulsed about his wices on the Cumianano icone and muslear disarrhment. WEE was not giving out asything — just arking, and he got the studies FW dista replies for the efforts.

Il. A meeting will be held before 20 duly when I is due to depart for Carpico to set up the 25th of July exhibit. I said that the heat they to contact him by phase at here is between 6700 and 6900, preferably at 6700. It the next meeting he will report at length on topics of intelligence interest and armangements will be made for more secure contact in the Julyan.

12. Parker alvised bit to always opeak in English when he phones Tarker just in corn screams right be listening -- his voice in English would be much harder to identify.

TO BE DONE:

The sobrecases also told I-9 that where is a terrific need for networks are in Cuba. He said that the four young meteorlogists who graduated in Mexico on 14 June with be not to work immediately. He said the situation re aviation meteorology is extremely acute and serious.

6. I-9 said that three or four baintings have arrived from Cuba for Amb. Carlos LECHUGA Hevia but that Carda Aerea has not picked them up at the Embarsy. L-9 went to Carda Aerea offices and he was told that the Procuraduria has been inspecting all material re Cuba and although they have been shipping they will not go to the Embassy to pick up material. The Cuban Embassy, there fore will make arrangements to send the paintings to the Carda Aerea offices.

7. I-9 said that on 13 or 14 June, a Pr. traduria agent went to his brother's apartment and queried him on the activities of Armando FUJOm, his working accounts in sense. The agent wanted

Debriefing of LITAMIL-9 on Trip to Cuba

Enclosed as attachments A, B and C are the results of the debriefing of LTRAMIL-9 by Edward D. Knapman.

Willard C. CURTIS

Attachment A

1. In compliance with DIR\_40146, Edward D. Knapman was dispatched to Mexico City from JMNAVE to conduct a debriefing of LITAMIL-9. .... the debriefing ..... totaling eight hours on the nights of 29 May, 31 May and 1 June 1963.

Attachment C

#### Operational Intelligence

8. Victor TRAPOTE Mateos - This man's most interesting operational access is through his daughter, Irina TRAPCTE de VALDES, who is married to Ramiro VALDES. The prospective fruitfulness of this entree diminishes, however, as the facts are laid on the table. For one thing, though anti-Communist, TRAPOTE is still a friend of Fidel Castro. L-9 said that he sheltered Fidel in his home during Fidel's exile in Mexico. TRAPCTE, who was born in Spain, is about 58 and apparently more interested in his art (sculpturing) than in politics. TRAPCTE apparently has no intention of going to Cuba permanently. L-9 says TRAPCTS has made np comment concerning Ramiro VALDES, but he apparently has suggested that Irina is not getting along well with Ramiro. L-9 described TRAPCTE as of medium height. solidly built, and in good physical condition. His daughter is a tall attractive blonde of about 25, and has a rather retaring personality. L-S could come up with no means of developing an operation against VALDES through these entrees. EXCSRPT HMMA-21475 4 June 1

- 1. In compliance with DIR-40146, Edward D. Knapman was dispatched to Mexico City from JMWAVE to conduct a debriefing of LITANIL-9. Knapman arrived here 29 May 1963 and conducted the debriefing at three sessions totaling eight hours on the nights of 29 May, 31 May and 1 June 1963.
- 2. Attachment B is largely positive intelligence while Attachment C is basically of operational interest. The intelligence debriefing was conducted on the basis of current and past intelligence requirements lists available at the Mexico Station. To the extent feasible we attempted to pinpoint ultimate sources, but headquarters will note that a sizable part of the information provided was based on personal observation and impressions. Meadquarters should keep in mind that L-9's perimeter of access was the city of Habana and that he was exposed principally to bureaucrats who are identified with the regime. We caution headquarters on this rather obvious point, perhaps because we were exposed recently to AMKNOCK-1 who has been living deep "in the entrails of the monster" in Oriente and who had a different view of the temper of the people in that area from that given by LITAMIL-9 for Havana.
- 3. In attachment C are the answers to a series of questions of operational interest which were posed after a thorough review of the LITAMIL-9 operational file. In some cases fuller biographic information can be obtained from L-9 if and when required. L-9 was most cooperative and understood clearly what the debriefer was looking for. In most cases, however, it is not probable that L-9 will be of great help in making operational approaches and pitches because of his present position.

Attachment B

- Subject had nothing meaningful to add on disaffections or realignments as a result of the October crisis.
- 2. With regard to internal friction within the GOC, he said that there is considerable criticism of the "old" Communists by the "new" Communists and 26th of July. He cited the case of Felipe "GUERRA Matos' criticism of Joaquin ORDOQUI and Nicolas GUILLEN (previously, reported) as cases in point. By and large, the new Communists and Fidelistas are grabbing off most key position in the government bureaucracy. Fidel Castro is still the principal leader of the Revolution and both the PSP and the Soviets know that he is vitally important to them. Source was told by his sister-in-law (Conchita) that Fidel showed some annoyance with Blas Roca one night when he phoned and told Rene VALLEJC to tell that "son of a bitch" ( de puta) to stop bothering him. Conchita also says that Fidel is somewhat annoyed at his old crony Carlos Rafael FROERIGUEZ because the zafra is proving to be such a bust and that Fidel has complained that Carlos Rafael frequently doctors INFA statistics to his own advantage. Despite these minor problems with key Communist leaders, Fidel continues on friendly terms with the key members of the PSP, and Blas Roca should be included with Fidel, Raul and Che Guevara among the four most powerful men in Cuba. Source commented that we must understand the myth created by the Revolution and its propaganda in evaluating internal friction and cleavages. Non-communist officials have been either brainwashed by propaganda, are still blindly loyal to Fidel, or else have no place to go. Thus, in the final analysis, the cleavages are superficial and of no great moment.
- 3. Source had no detail on the formation of the Partido Unico. He commented that the PSP view PURS as an attempt by Fidel Castro to absorb it and that the PSP consequently has been cool to the idea.
- 4. Subject was questioned on mass organizations in Cuba, but could provide no information worth reporting.
- 5. Source was questioned on the positions of Lazaro Pena, Luzarde, Ramiro VAIDES and Juan MARINELLO. He had little of importance though he commented that Fidel, according to Conchita, did not hold Lazaro FRENA in high regard. Source had no information on MARINELLO's reported problems at the University of Habana.
- 6. We covered the gamut on counter-revolutionary activities and other types of resistance with disappointingly negative results.
- 7. In the military field (number of Soviet troops, training in both Cuba and the Soviet Union, missile arrivals, hiding of military materiel in caves etc.) source could add nothing to the bolas which can be picked up on Flagler Street in Miami.

SEUR: CS COPY.

### SLCRET

- 8. Source was questioned about Chicom military activities. He answered that he saw no Chinese, heard no comments about the Chinese and did not get the impression that the Chicoms are significantly active in any field in Cuba.
- 9. When asked about Cuban confidence in the Soviets, he said that most people he had talked to felt that the Soviets would come to Cuba's defense in case of an American invasion if it happened to suit Soviet interests at the time. He said that to his knowledge Soviet technicians were getting along well with Cubans, but he feels that the Cuban people view the Soviet with detachment socially and have very little to do with them.
- 10. Source was queried on any comments he had heard concerning a GOC desire for a rapproachement with the United States. He said that he had heard nothing specific, but that he personally felt this was a prospect frequently considered by Castro.
- 11. In view of Sources excellent sub-source in INFA (Conchita), it had been hoped that he would be able to provide some valuable information on this organization. Actually, he had little to add to Conchita's comments in regard to Fidel's attitude toward Carlos Rafael Rodriguez. We asked for Conchita's evaluation of Carlos Rafael, and received information which has many times been forwarded to headquarters and need not be repeated here. Conchita made no meaningful comments on the effectiveness of Soviet and Satellite technicians assigned to INRA. (See also paragraph 5 of attachment B concerning Fidel Castro which may be of PI interest.)
- 12. When asked about the principal reasons for industrial difficulties, Source said that he heard universal complaints about the need for spare parts. He could only pinpoint the transport industry. He had no specific information on how some U.S. manufactured spare parts were being received, but commented that Canada might be the source. He could give no specifics and said that all correspondence on these matters is closely held and encoded when cabled. He has had no access to such information.
- 13. Regarding the rationing system, he said that it is working more smoothly now than a year ago and that grumbling is less now than in the past. He said that things are better organized now and that he saw no desperation because of food or other shortages.
- 14. Source said that he had heard of no significant increase in diseases, though there was such comment about cases of gastroenteritis.
- 15. Source had no information whatever on the export of the Cuban Revolution and on the training of revolutionaries from other areas in Cuba.
- 16. Regarding diplomatic relations with other Latin American countries and Spain, his understanding is that the GOC wants no more breaks and is especially interested in maintaining the tie with Madrid since Spain is the mother country and an airline link to Europe.

## SEURET

- 17. With regard to the Civil and Foreign Services, Source said that there is more stability and discipline in both than there was a year ago, with a consequent rise in morale. He said that there is much less free-wheeling on the part of subordinates, but now the chiefs are expected to face up to their responsibilities and the competent must carry the load for the majority who are incompetents. We commented that this was not a phenomenon absent in other public services and tried to flush Source out on the quality, loyalty and efficiency of the services. He said that loyalty is increasing, quality is circumscribed seriously by insufficient academic preparation and job training and efficiency has increased in the past year because of better discipline and improved administrative practices.
- 18. Subject had nothing of consequence to add regarding the organization of the Ministry of Foreign Relation and the Foreign Service. This subject will be covered to some extent in the operational attachment to this dispatch. See paragraph 7 of attachment B concerning the rumor that Armando HART will replace Raul ROA at MINREX.
- 19. Source had little information on the Church. He said that the Catholic Church is not being molested and that relations between it and the GOC have improved. Pope John XXIII was viewed with favor by the GOC. (Note: Batistianos in Miami frequently take the opposite view.)
- 20. Source had nothing of value on the Ministry of Education, the University of Habana, the literacy program, the establishment of new technical and scientific institutes, the quality of education at secondary and primary levels.

- 21. Regarding the United States, he feels that there is still a fund of friendship among the Cuban people and admiration of american technology. He said that a few of his friends listen to U.S. broadcasts, but he had nothing to say concerning their comments and the extent to which these broadcasts are having an effect.
- 22. Regarding the temper of the Cuban people, source does not believe that the ingredients for a revolt exist. He feels that the regime may have more support now than it had a year ago, or, if such is not the case, that people are just more resigned to it.

had been in touch with GUEVARA. L-9 described him as a man in his thirties, who had lived in Mexico. He struck L-9 as something of a bluffer, and L-9 understands that he is not well liked. - 2. Source had nothing new to add on Ramon CUENCA, suspected G-2 agent, than is already a matter of record.
- 3. With the prospect of possibly developing source's brother, Alfredo (see 29 below), through their half-sister, source was queried on the latter, but we ceased this line of questioning when the thing learned that the child is only 10.
- 4. Source had met Jose "Pepin" \*NARANJO when he came to Mexico with Blas Roca, but he had little of operational interest to add concerning him. He said that NARANJO struck him as wily, sharp, but intellectually quite superficial.
- 5. We questioned source concerning Conchita's impressions of Antonio NUMEZ Jimenez, and Carlos Rafael \*RODRIGUEZ, and nothing of value resulted (see attachment B for some comments on the position of the latter). Conchita did have an interesting comment concerning Fidel CASTRO's health. Apparently he has not fully recovered from a rather serious pulmonary illness and she said that he is much less robust than he used to be. (Attention is drawn to this paragraph in Attachment A).
- 6. Orlando \*SANCHEZ He is the brother of Celia SANCHEZ, and L-9 believes that he is disaffected with the regime and is anti-Communist. SANCHEZ is about 38, lived for a time in New York (ODURGE traces should therefore be available), and is now in charge of the "Seccion X" store on O'Reilly Street in Habana. His wife, whose name escaped L-9, is an American and probably of Puerto Rican extraction. They have at least one child. L-9 feels that there is very little chance that SANCHEZ is recruitable and he does not believe that he would use Celia for intelligence purposes in any case. As Headquarters knows, L-9 has extended an invitation to SANCHEZ to wisit him in Mexico. We could, perhaps, push this, but the chances of successfully recruiting him in Mexico, according to L-9, would be small. L-9 said that a sister of Celia, whom L-9 described as being in her twentles and married to a formerly wealthy man from Oriente whose holdings hed been confiscated, was against the regime and was about to leave Cuba for Miami with her husband. L-9 did not know the sister's name.
- 7. The writer asked L-9 whether he had any contact with Eaydee SANTAMARIA or her spouse, Armando \*HART Davalos, during his visit, and he said that he had not. He said that it was widely rumored around the Foreign Ministry that Hart might replace Raul ROA. He said that this would really not be a demotion for Roa since he would handle and attend international conferences while Hart administered MINISTREX.

8 Victor TRAPOTE Mateos - This man's most interesting operational access is through his day hter, Irina TRAPOTE de VAIDES, who is married to Ramiro \*VAIDES. The prospective fruitfullness of this entree diminishes, however, as the facts are laid on the table. For one thin, though anti-Communist, TRAPOTE is still a friend of Fidel Castro. L-9 said that he sheltered Fidel in his home during Fidel's exile in Mexico. TRAPOTE, who was born in Spain, is about 58 and apparently more interested in his art (sculpturing) than in politics. L-9 described TRAPOTE as of medium height, solidly built, and in good physical condition. His day hter is a tall attractive blonde of about 25, and has a rather retiring personality. L-9 could come up with no means of developins an operation against VAIDES through these entrees Reconnections.

9. Source was asked about the current activities of Faure \*CHOMON, and gould add nothing to what is already known.

10. Abraham \*MACIQUES - He is about 28, Jewish, has no military title, and was formerly married to an American who has divorced him and returned to the United States. He is now married to a Cuban who gave birth to a child in the Spring of 1963. His parents live in Cardenas, Matanzas, but L-9 could give no other information on them, the former wife or the present wife. He said that AMIEO-3 would have much fuller basic information on MACIQUES. His sister, Nidia \*MACIQUES de Roque, lives in Wooster, Ohio at 1653 Smithville Road. L-9 said that MACIQUES was relieved of his job in the Cienaja de Zapata because people under his direction were assisting anti-Castro elements which have since been liquidated. It is not clear whether MACIQUES knew of these activities, but, in any case, Fidel Castro sacked him. MACIQUES, at the very least, is indifferent to the present regime. He told L-9 that he would leave for the United States if he could (7 get to see Fidel soon about another job. L-9 feels that MACIQUES may be recruitable, but he could propose no approach. It should be noted that MACIQUES' access is limited now (no job) and he may be in disgrace.

11. Guillermo MEON Antich - L-9 said he is about 30, has the rank of 1500 ambassador, and may be G-2, but he had little else to add to our present knowledge of IEON. RE. CONTAIT with Sub- of 201-32-500 but June 63

12. LIOOZE-1 - L-9 said L-1 is assigned to protocol in the Foreign Ministry and that he spends a good deal of his time at the airport at Rancho Ecyeros. L-1 has criticized extremism in the regime, is pro-ROA, apparently strongly dislikes Carlos \*OLIVARES and was glad to see him sent out to the field. L-9 gave no further information that is not already a matter of record.

13. Ramiro \*DEL RIO - He is about 28, went about half way through medical school at the University of Habana, is rather short, well-proportioned, and stops a bit when he walks. He is probably 6-2 and is assigned to the Consejo Hacional de Cultura. He is a protege of the Consejo's directress, Edith \*CARCIA Buchaca (see 14 below). L-9 believes DEL RIO is a strong Fidelista and not a recruitment candidate.

14. Edith CARCIA Buchaca and the Consejo Nacional de Cultura - CARCIA, an old-line Communist, is trying to place Communists and extremists in as many cultural slots as practicable in Cuban embassies. She is 45-47, a light mulatto, about 63-64 inches tall, fairly well proportioned, and an indefatigable worker. The Consejo is now located in the Ayuntamiento de Marianao and has a staff of about 25 at headquarters. L-9 does not know of any clandestine activities in which the Consejo may be engaged and considers it basically a cultural organization. In addition to GARCIA and DEL RIO, L-9 recalls the names of the following personnel: Warta WARAJONA (plastic arts), Maritza WALONSO (recites poetry). He said that the Consejo is interested primarily in fostering art exhibitions, many of which are displayed abroad. He mentioned Aracio WANEGAS Arroyo, a Mexican employed by the Consejo, as a contact, but VANEGAS appears to be a strong Castrista. Vanegas is 30-34, about 65 inches, well-built, married to a Cuban and a good friend of Raul Castro. L-9 could come up with no realistic penetration prospects in the Consejo.

- 15. Guillermo \*GUERRA Matos L-9 had nothing to add to what has already been reported. L-9 does not know GUERRA personally.
- 16. Petra \*PALLECAS de PEDRCSO Her husband, Regino \*PEDROSO, is a poet of some stature and Cuban Charge in Peking. L-9 does not know whether Regino is a Communist, but he knows that he was at one time arrested for being one. Petra and Regino have no children. She is middleage and is separated from Regino to collect her benefits in Habana as a retired teacher. She is related to the Communist poet, Nicolas GUILLEN. L-9 views Regino as a very slippery article and did not have any recommendations concerning an operational approach. In any case, there is no real reason to believe that either Petra or Regino would be susceptible to a pitch.
- 17. L-9 had nothing to add to what already has been reported concerning AMIEO-3 and his family.
- 18. He had nothing new on Orlando \*PANTOJA Tamayo, previously reported to be an inspector for Ramiro Valdes.
- 19. L-9 was questioned about the RAYO brothers (Armando and Alberto BAYO Coscaya), old man BAYO (Gen. Alberto BAYO Giroud) and General Enrique Lister. The only comments he had to make were that the BAYOs are all believed to be proregime and that the old man is of no significance in Cuban affairs. He knew nothing about Lister.
- 20. The subject of Conchita, which has already been mentioned elsewhere in this debriefing, was discussed at length with L-9. Nothing of operational interest that has not already been reported by the Mexico Station emerged from this discussion. Conchita is still loyal to Fidel and L-9 could suggest no workable operational approach to her.

- 21. Rene Depestre Source had no information of use.
- 22. L-9 was questioned about rumors of Castro penetration of KUBARK that he had heard during his visit, but he could provide no specifics. He gave no information on Cuban intelligence activities that is not already a matter of record.
- 23. Agustin YASSELLS Nothing new to add except that L-9 considers this diplomatic courier as quite loyal to the regime.
- 24. Mercedes IECHUGA She is about 35, a teacher, single, anti-Communist and lives with her parents on Calle 25, No. 963, Vedado, Habana. She is the sister of Ambassador Lechuga and known personally to L-9, but he does not believe that a pitch would be practicable.
- 25. Ernesto \*RODRIGUEZ Cue He is about 30, married to a Mexican, and believed to be loyal to the regime. Although he is employed in a very worthy target area ("confidenciales" of MINREX), L-9 does not believe him to be recruitable.
- 26. Felipe \*ROJAS This employee of the Cuban Embassy in Mexico plans to go to Cuba. L-9 understands that Rojas is going to emigrate to Cuba permanently and does not know what ROJAS plans to do there. L-9 gathers that ROJAS will be paying his own passage. While this at first appeared to be an operational lead, it would seem that it is simply a case of a pro-Castro young man who wants to settle in Cuba.
- described him as a man in his forties, but who looks much younger. He is highly thought of in the Cuban Foreign Service, is very intelligent, and believed to be loyal to the regime. L-9 had no information of operational interest on Hernandez. Recommendation of Recommendation of the regime.
- 28. Dolores de la MORA Source said that she is highly intelligent and rich Mexican, who is now in Cuba, and is close to Fidel Castro and to Luis Alberto/CIZRGE Fabra, a G-2 officer. L-9 got this information from Conchita second-hand and was not able to provide additional details.
- 29. Alfredo, L-9's brother the writer can add nothing to what Station Mexico has already reported on this operational target, and feels that we are barking up the wrong tree if we expect L-9 to approach him. In so doing we would be trying to undermine values which probably transcend L-9's basic anti-Communism. On the other hand, Alfredo is anti-Communist and dissatisfied with the regime, and, while he rejected Growery's pitch, he did so graciously and told L-9 that Growery impressed him favorably, While the writer cannot suggest an approach to Alfredo, it is felt that at this time such attempts as may be made to develop him should be channeled through someone other than his brother.

LITALIL-9 reported as follows:

1. On 29 January 1963, Jaimo WOOLRICH went to the Cuban Embassy to

discuss travel to Havana re 10th Medical Congress. WOOLRICH, who will be using a Special Passport told I-9 that he had been to Tijanna recently and crossed the border, visiting San Diego. WOOLRICH gave his address as Condowinio Insurgentes, Insurgentes Sur 300 -603, its city LITAMIL-9 said that WOOLRICH was shrewdand "sneaky", he did not like his attitude. He appeared to be a person of "confidence". i.e. of the Cuban Embassy. WOOLRICH said he had a Cuban visa. WOOLRICH showed L-9 a letter which he received from Havana several months ago because according to WOOLRICH the meeting was scheduled for the end of last year. WOCLRICH pointed out that the paper was outdated and surgested that it be returned to Havana and a new one sent to WOOLRICH. The letter provided spaces to fill in by WOOLRICH of the doctors who would be going. WOOLRICH told L\_9 that he had about five in mind, that some of those who were going have changed their minds. WOOLIRHC said that Dr. Clemente ROBLES was now vacillating and he did not know whether he was going to go. L-9 told WOOLRICH he would send the latter soonest and get a new one for WOOLRICH to fill in. The Congress will take place between 17-24 February 1963. L-9 took WOOLRICH to see Maricarmen OLIBARRI re visas and left him there. WOOLRICH, however, will be back to see I-9 on 30 Jan 63.
